## HISTORY & INTRODUCTION

In 2012, I started Blinky Blinky Computerband as the successor of my long running project Inside Agitator and my other projects like Dark Ghost Dream and Abnormal Dysfunction. Blinky Blinky Computerband was my way to do something new without the “burden” of the past 20 years of making music. Sure, I know my new music could only be something electronic again, but for me it was a new start. I decided to call it “Strange Electro Pop” because I did not want to fit in any genre. I want to do what I want and I want to mix electronic genres I like. So, I started to do something between EBM, Electropop, Industrial, Techno, Ambient, ...!

Blinky Blinky Computerband was and will be a “one-man-studio project”, but yes, there were guests from time to time on the releases and together with me on stage. People like Matthias “Van Bauseneick” Bosenick, Michael “Arni” Arnold and some others were very important for the music of Blinky Blinky Computerband, because tracks like “Ich will nicht tanzen” or “Killing Machine” would sound very different without them and that would be a shame in my opinion. And I really hope to have lots of them again on my tracks and new people, too!

And the future? Hm, good question! Lots of things happened in the last eight years of Blinky Blinky Computerband. Some very good things, but there were also bad things and experiences and I hope, the future will bring only the good ones! 😊 There is a song on “Inner Conflict” with the title “Don’t Look Back” and this phrase is a motivator for me. OK, yes, there are many things I really like to remember: Opening the box with the first “real” Blinky CDs. Having a fantastic live performance at the Strange Electro Pop Festival. Having big fun with the home concert with Torsten Jung and the small audience. Shooting lots of funny video clips with lots of funny people. Having great recording sessions. This list could be continued, but I think this is enough for now.

And yes, “Don’t Look Back” was written especially because of some bad things and because of that I will look forward to new music, new releases, new guests, more live performances and so on! Some things, like a new album, are planned, but there is nothing more to tell about at this moment.

And now I can only say “thank you” because you read all this and I really appreciate your interest and (hopefully) your support for my vision of electronic music. I really hope you like all or parts of my music catalogue. I am sure, not everybody likes everything I do, but this is totally understandable and okay. Listen to your part of “Strange Electro Pop” and have fun with it!

Olaf

## WE ARE ... THE BLINKY PEOPLE

## LIVE PERFORMANCES

### **1 October 2016 – Strange Electro Pop Festival, Tegtmeier, Braunschweig**

Blinky Blinky Computerband played at this festival together with Psyche, Infernosounds and Synergy. It was a full one-hour performance with a guest appearance of Darrin Campbell Huss from Psyche. The most of the songs for this performance were taken from the “For A Better World” album.

Line-up:

Olaf Krautwurst: vocals

Michael “Arni” Arnold: guitars

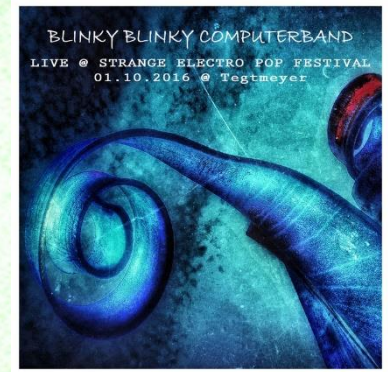

Matthias “Van Baueneick” Bosenick: keys, backing vocals, vocals (Ich will nicht tanzen)

Henning Reuter: keys, vocals (Strange Life)

Darrin Campbell Huss: guest vocals (Up Close)

### **16 March 2019 – Live @ Home, BBCom Music Studio, Cremlingen**

The “Internet Home Concert” was the first time Olaf played together with Torsten as the keyboarder of Blinky Blinky Computerband in front of a small audience. Before the regular concert, Torsten and Olaf were trying to play together for about one hour. After this little private rehearsal, the plan was to play ten songs in a one-hour concert, but everybody had so much fun that they played for two and a half hours. The concert was streamed live via Twitch and Facebook. This concert recording is not perfect, but it was made with fun and passion.

Line-up:

Olaf Krautwurst: vocals

Torsten Jung: keys

To order CDs and/or merchandise of Blinky Blinky Computerband, please send your order with your address to: [olaf@staticsilence.de](mailto:olaf@staticsilence.de).  
After checking my stock, I will send you an e-mail with the total amount of money for your order including the shipping costs. I always try to get a good balance between safety and cheap shipping, but because of some regulations from the Deutsche Post, it is not possible to send CDs or shirts as a letter to foreign countries, so it is only possible to send them as small or registered parcel at higher costs. But please ask and I am sure, we find a solution. Payment can be done via PayPal or bank transfer.

### **SPECIAL OFFER**

If you order five or more CDs, you can also order a limited-edition metal box for free!

This box has a weight of 1.2 kg and was hand-sprayed by myself and there will be not more than 20 of these collector items. Please consider that your shipping costs could be higher if your order the box.

If available, you will also get some Blinky Blinky Computerband stickers with each of your orders.

## **SHOP & STREAM LINKS**

[Bandcamp](#) / [Spotify](#) / [Tidal](#) / [Deezer](#) / [Beatport](#) / [Amazon](#) / [Google Play](#)

Unfortunately, not every release is available at every shop. The best and cheapest shop for downloads is Bandcamp where you can choose from different file formats like mp3, wave or flac. The best streaming service is Tidal, but sure, Spotify is also okay if you do not want to pay for a premium subscription.

## **THANK YOU & GREETINGS**

I would like to say “thank you” and send greetings to so many people for supporting me, remixing me, playing me, listening to me or whatever else, but this list will be pointless, because it will never be complete and I do not want to disappoint anybody for not being or for being on the list. And so I decided to send greetings and to say “thank you” to everybody, who feels addressed and especially to you for reading these words right now! 😊

Thank you for all your support and friendship!

Greetings,  
Olaf
